Tele MANAS Helpline

Tele MANAS (Tele Mental Health Assistance and Networking Across States)
(14416/ 1800-89-14416)

Under the National Mental Health Program, the centrally sponsored scheme Tele MANAS is being implemented in the state of Maharashtra from October 2022. Under the Tele MANAS Program, free 24 × 7 integrated and comprehensive mental health services are provided through the helpline number 14416. This includes treatment and counselling by experts for various mental problems. The information provided by you after calling the Tele MANAS helpline remains completely confidential, so students, parents and teachers should feel free to call the helpline number and tell them about their problems and doubts and get guidance on it. Tell others to take help from this facility as well.

Manodarpan

The Manodarpan Helpline (8448440632) is a free telephone service that has been made available since July 2020. It is provided by the Ministry of Education through the Manodarpan Cell at the National Council of Educational Research and Training (NCERT) to offer psychological guidance and support to students, parents and teachers. This service is available every day of the week from 8:00 AM to 8:00 PM. Students, parents and teachers can call this helpline to receive the necessary guidance and counseling.

This textbook has been prepared according to the syllabus and curriculum designed by the State Council of Educational Research and Training (SCERT), Maharashtra, Pune. It has also been reviewed and approved by them. As per Government Resolution No. Abhyas-2116/(P.K. 43/16) SD-4 dated 25.04.2016, this textbook has been approved in the meeting of the coordination committee held on 1st April 2026. It will be used from the academic year 2026–2027.

The Constitution of India

Chapter IV A

Fundamental Duties

ARTICLE 51A

Fundamental Duties – It shall be the duty of every citizen of India –

- (a) to abide by the Constitution and respect its ideals and institutions, the National Flag and the National Anthem;
- (b) to cherish and follow the noble ideals which inspired our national struggle for freedom;
- (c) to uphold and protect the sovereignty, unity and integrity of India;
- (d) to defend the country and render national service when called upon to do so;
- (e) to promote harmony and the spirit of common brotherhood amongst all the people of India transcending religious, linguistic and regional or sectional diversities, to renounce practices derogatory to the dignity of women;
- (f) to value and preserve the rich heritage of our composite culture;
- (g) to protect and improve the natural environment including forests, lakes, rivers and wild life and to have compassion for living creatures;
- (h) to develop the scientific temper, humanism and the spirit of inquiry and reform;
- (i) to safeguard public property and to abjure violence;
- (j) to strive towards excellence in all spheres of individual and collective activity so that the nation constantly rises to higher levels of endeavour and achievement;
- (k) who is a parent or guardian to provide opportunities for education to his child or, as the case may be, ward between the age of six and fourteen years

NATIONAL ANTHEM

Jana-gana-mana-adhināyaka jaya hē
Bhārata-bhāgya-vidhātā,

Panjāba-Sindhu-Gujarāta-Marāthā
Drāvida-Utkala-Banga

Vindhya-Himāchala-Yamunā-Gangā
uchchala-jaladhi-taranga

Tava subha nāmē jāgē, tava subha āsisa māgē,
gāhē tava jaya-gāthā,

Jana-gana-mangala-dāyaka jaya hē
Bhārata-bhāgya-vidhātā,

Jaya hē, Jaya hē, Jaya hē,
Jaya jaya jaya, jaya hē.

PLEDGE

India is my country. All Indians are my brothers and sisters.

I love my country, and I am proud of its rich and varied heritage. I shall always strive to be worthy of it.

I shall give my parents, teachers and all elders respect, and treat everyone with courtesy.

To my country and my people, I pledge my devotion. In their well-being and prosperity alone lies my happiness.

राज्यगीत

जय जय महाराष्ट्र माझा, गर्जा महाराष्ट्र माझा
जय जय महाराष्ट्र माझा, गर्जा महाराष्ट्र माझा ॥धृ॥

भिती न आम्हा तुझी मुळी ही गडगडणाऱ्या नभा
अस्मानाच्या सुलतानीला जबाब देती जिभा
सह्याद्रीचा सिंह गर्जतो शिव शंभू राजा
दरी दरीतून नाद गुंजला महाराष्ट्र माझा
जय जय महाराष्ट्र माझा, गर्जा महाराष्ट्र माझा ॥१॥

काळ्या छातीवरी कोरली, अभिमानाची लेणी
पोलादी मनगटे खेळती, खेळ जीवघेणी
दारिद्र्याच्या उन्हात शिजला
निढळाच्या घामाने भिजला
देश गौरवासाठी झिजला
दिल्लीचे ही तख्त राखितो, महाराष्ट्र माझा
जय जय महाराष्ट्र माझा, गर्जा महाराष्ट्र माझा
जय जय महाराष्ट्र माझा ॥२॥

Preface

Dear
Students,

We are very happy to present this textbook, 'The World Around Us – Part 2', which introduces you to the subjects of History and Civics. This book is prepared according to the curriculum designed by Maharashtra State, based on the National Education Policy 2020. You are studying this subject for the first time in Class 3. You will begin to learn and understand many things around you in a new and interesting way through this subject.

This textbook begins with your family. You will learn more about your relatives, family relations, neighbors and then your favorite school. You will also learn about markets in your area, your needs as well as the problems around you. You will understand the importance of water and how to save it. You will learn about historical places nearby, means of transport and communication as well as how to protect and care for nature around us. As all of us are Indians, you will also learn about our traditions, diversity, great people and social reformers. You will read about wonderful cultural diversity in our country and understand that in spite of this diversity, we live together with unity in our country.

The cover page of this book shows these ideas through pictures. It uses a simple map of India to show the diversity of our country. It shows that our country is a wonderful example of unity in diversity.

You will enjoy doing the different activities in this textbook. You will learn the subject in an easy and fun way with the help of different activities such as discussions, writing, observing pictures, understanding ideas, sharing opinions and expressing your thoughts. The book includes many attractive pictures that will help you understand the lessons better. It focuses on learning with joy and fun. We warmly welcome you to this new world of learning and wish you all the best for your Class 3 studies!

The History and Civics subject committees, the artist and the photographers have taken great pains to prepare this book. If parents, students or teachers face any difficulty regarding the content of this textbook, they are requested to inform the Textbook Bureau.

The World Around Us– Part 2

Curriculum Goal: CG-1 : To explore the natural and social-cultural environment around students and actively involve them in it.				
No.	Lesson Name	Curriculum Competency	Learning Outcomes	Page Numbers
1	Our Family	C-1.2 A student describes family and social relationships (humans, animals/nature) and traditions (art, festivals).	- A student explains different types and forms of families and relationships. - A student explains relationships in the family. - A student explains types and forms of families.	1, 2, 3, 5, 6 2, 3, 4, 5, 6
2	Family Tree	C-1.5 A student uses local resources to create things (family tree, envelopes, animal figures made up of paper) for home or classroom decoration.	A student explains his/her own family tree.	7, 8, 9, 10
3	My School	C-1.4 A student explains the functions of local institutions (family, school, bank, post office, market, village council) in different forms (story, pictures, tables, reports) and analyzes their roles.	- A student explains the functions of local institutions and analyzes their roles. - A student explains the functions of the school and analyzes its role.	11, 12, 13, 14, 15, 16, 17 11, 12, 13, 14, 15, 16, 17
4	Market	C-1.4 A student explains the functions of local institutions (family, school, bank, post office, market, village council) in different forms (story, pictures, tables, reports) and analyzes their roles.	A student explains the functions of the market and analyzes its role.	18, 19, 20, 21, 22, 23, 24, 25
Curriculum Goals : CG-6: Use information from different sources to find solutions to problems in the surroundings. CG-4: Develop sensitivity towards social surroundings and natural environment. CG-9: Develop interest in the lives and work of great people from India's glorious history (especially from Maharashtra) and understand their contribution to nation-building and social revolution.				
5	Our Needs and Problems	C-4.3 A student describes the use of natural resources in the surroundings. C-4.6 A student identifies needs of people in different situations such as availability of resources, equal opportunity, division of work, shelter, etc. C-6.1 A student investigates simple questions individually or in groups. C-9.2 A student learns from the lives of great people that wisdom, courage and understanding helps overcome difficulties.	- A student explains the use of natural resources in the surroundings. - A student lists basic human needs and explains their importance. - A student explains how work is divided among people based on resources and skills. - A student understands the needs and problems of people through questions and tries to provide solution. - A student learns about facilities for differently-abled people in public places through questions. - A student lists and classifies the needs and problems of people in the surrounding. - A student gives examples showing how wisdom courage and understanding help overcome problems.	26, 27, 28, 29, 30 26, 27, 28, 29, 30, 33, 34 31, 32, 33, 34, 35, 36 31, 32, 33, 34, 35, 36 13, 14, 32, 33, 34, 35, 36, 83 26, 28, 29 34, 36

6	Water Literacy	C-9.3 A student learns values like equality, justice, environmental protection and water literacy from the lives of great people and follows them.	A student understands the concept of water literacy. Learns about the work done by great people in this field and applies it in daily life.	37, 38, 39, 40, 41, 42, 43
Curriculum Goals : CG-4 : Develop sensitivity towards social surrounding and natural environment. CG-2: Understand relationships in the surroundings through observation and experience. Learn the idea of ‘The whole world is one family’. ‘वसुधैव कुटुम्बकम्’ CG-6: Use information from different sources to find the solutions to the problems in the surrounding.				
7	Indian Traditions and Cultural Diversity	C-2.2 A student explains the relationship between the natural environment and cultural practices (types of work, food, festivals, traditions). C-4.2 A student observes and describes cultural diversity in the surroundings (food, clothing, games, seasons, festivals related to sowing and harvesting). C-6.2 A student presents observations and conclusions creatively (through pictures, diagrams, poems, drama, scripts, games, oral or written expression). C-8.2 A student compares, understands and explains changes that have occurred in customs, traditions, and techniques from the past to the present.	- A student explains crop seasons and related festivals. - A student connects the natural environment with cultural traditions. - A student gives information about environmental elements in the surroundings. - A student relates cultural practices/ traditions with the environment. - A student explains diversity in food and clothing of people in the surroundings. - A student gives information about local games. - A student presents observations and conclusions about traditional games. - A student presents observations and conclusions about traditional folk arts. - A student explains customs and traditions of the past and the present.	44, 45, 51 46, 48 46, 47, 49 46, 49, 50, 51 48, 49, 50 44, 45, 47, 50 47, 49, 50, 51
8	Means of Transport	C-2.3 A student understands changes in surroundings, family, and society structures through stories told by elders (changes in occupation, food habits, resources, transportation, ceremonies).	- A student explains the concept of traditional and modern means of transport. i. A student explains the concept and different means of transport. ii. A student identifies traditional and modern means of transport. iii. A student explains changes in the means of transport over time.	52, 53, 55, 57 53, 54, 55, 56, 57, 58 53, 54, 55, 56, 57, 58 53, 54, 55, 56, 57, 58
Curriculum Goal : CG-9 : To develop interest in the lives and work of great personalities from India’s glorious history (especially in the context of Maharashtra) and to understand their contribution to nation-building and social revolution.				
9	Historical Monuments	C-9.5 A student collects information about historical events, incidents, places and monuments in the local area.	A student visits historical monuments, places and sites in the local area, collects information about related historical events as well as incidents and describes them.	55, 59, 60, 61, 62, 63, 64

Curriculum Goal : CG-9: To develop interest in the lives and work of great personalities from India's glorious history (especially in the context of Maharashtra) and to understand their contribution to nation-building and social revolution.

10	Stories of Bravery and Revolution	C-9.4 A student takes inspiration from the efforts of saints and social reformers who worked to establish values like social equality, brotherhood as well as harmony and tries to follow these values.	• Shares information about great personalities and social reformers who worked to establish as well as promote equality and brotherhood. A student learns from such inspiring incidents to follow the same values.	65,66,67,68
		C-9.6 A student narrates stories of bravery of great leaders and revolutionaries who helped India gain independence and follows / believes in the same principles.	• A student tells stories of bravery of great leaders, freedom fighters and revolutionaries from the surroundings and explains their contribution to the freedom struggle.	65,66,67,68
		C-9.2 A student learns from the lives of great people that wisdom, courage and understanding help overcome difficulties.	• A student uses wisdom, courage and understanding to overcome problems in life.	66,67,68
		C-9.1 A student describes and analyzes inspiring events from the lives of great personalities such as Chhatrapati Shivaji Maharaj.	• A student describes inspiring incidents from the lives of great people.	65,67,68,69
11	Protection of the environment: My Responsibility	C-10.5 A student participates in cleanliness drives, tree plantation and other social activities. A student understands personal responsibility.	• A student participates in cleanliness drives and explains their importance. • A student takes part in tree plantation activities and describes ways to protect and care for trees.	70, 71, 72 70, 71, 72, 73, 74, 75

Curriculum Goals : CG-9 : To develop interest in the lives and work of great personalities from India's glorious history (especially in the context of Maharashtra) and to understand their contribution to nation-building and social revolution.

CG-10: To develop awareness about constitutional responsibilities and understand the concept of democracy.

12	National Unity	C-10.3 A student understands the concept of core elements and analyzes them from the perspective of maintaining national unity in India.	• A student recognizes the importance of national unity as a core value.	76, 77, 78, 79
13	Let us Listen, Speak and Understand	C-9.2 A student learns from the lives of great people that wisdom, courage and understanding help overcome difficulties.	• A student gives examples showing that wisdom, courage, and understanding help overcome difficulties.	80, 81, 82, 83, 84
		C-10.6 A student expresses one's thoughts and opinions freely. At the same time a student respects others' opinions and treats everyone equally.	• A student expresses own ideas on different topics and respects others' opinions.	80, 81, 82, 83, 84

- **Note On Maps** - Maps included in this textbook are intended only for educational purpose and should not be used as a standard for political or geographical reference. Although utmost care has been taken to maintain accuracy, inadvertent errors, if any, may be due to technical limitations.

Guidelines for Teachers While Using the Textbook

- The main aim of the National Education Policy is to improve the learning outcomes of all students. Therefore, teachers should focus on the learning outcomes given at the beginning of the textbook while teaching.
- While planning each lesson, teachers should design learning experiences and activities based on these learning outcomes.
- The lessons include ideas from different subjects. The textbook follows multidisciplinary approach. Teachers should help students learn in an integrated and easy way using different subjects.
- Students can understand the topic better through different activities.
- While giving different learning experiences, teachers should also help students learn about Indian knowledge systems and ideas like Panchakosha.
- It is important to introduce to diverse concepts such as protection and care of our surrounding, Indian culture and traditions, diversity in our country. The cover page of the book shows this idea using a map of India. National unity is very important for the progress of our country and this idea should get reflected while teaching.
- Due to limited space, the textbook cannot include all local historical places and important personalities. Thus, teachers should include local examples during teaching as well as activities to help students connect with the topic easily and become active participant in the process of teaching – learning.
- Students should be made aware of the needs and problems faced by people, the increasing need of environmental protection, importance of water and saving water, etc. These should be taught in simple, relatable and engaging ways.
- Teachers should introduce students to nearby historical places and explain the importance of protecting them.
- To lessen the burden of students only important points are explained in the textbook. Teachers should give extra information where needed to make learning easier.
- Teachers should organize field visits and educational trips to give real-life experiences, such as: school fairs, visits to historical places (Heritage walks), visits to museums, local area trips etc.
- Teachers should organize different competitions that help in the overall personality development of students.
- While teaching students with special needs, teachers should use: content in (sign ) Language) and other helpful teaching methods. Students with special needs should be given opportunities to express themselves in ways that are comfortable for them.

Table of Contents

Name of the lesson	Page number
1. Our Family	1
2. Family Tree	7
3. My School	11
4. Market	18
5. Our Needs and Problems	26
6. Water Awareness	37
7. Indian Traditions and Cultural Diversity	44
8. Means of Transport	52
9. Historical Monuments	59
10. Stories of Bravery and Revolution	65
11. Protection of the Environment - My Responsibility	70
12. National Unity	76
13. Let us Listen, Speak and Understand	80

A vibrant illustration of a family gathering in a living room. A young woman in a blue dress is serving food on a plate to a group of seated elders. A man in a light blue kurta stands near a doorway, holding a yellow garland. A woman in a pink sari stands near a window, also holding a yellow garland. The room features a large window with a grid pattern, a doorway with a yellow curtain, and a framed picture of a kitchen on the wall.

As Meena had grandparents from both sides - her mother's parents and her father's parents, she was being pampered a lot. Meena and her cousins were helping the elders. The grandparents were supervising all the work and welcoming the guests. All the relatives were talking, laughing and working together.

In Meena's family, her mother, father, paternal uncle-aunty, grandmother-grandfather, brother-sister all stay together. Seema is Meena's real sister. Abhi is Meena and Seema's cousin as he is the son of Meena's paternal uncle and aunty. This means that Meena and Seema both are Abhi's cousin sisters.

Accordingly, Let us prepare a chart of Meena's family!

Family means a group of people who are related to each other.
The types of families are as follows:

Big family

Small Family: A family in which mother-father and their children live together is called as a small family.

Small family

Extended Family

Extended Family : The relatives from our mother's side and father's side are included in our 'extended family'. The members of an extended family do not live together in the same house. However, they help each other when needed. They care for each other and share their joys and sorrows.

Single-Parent Family : In some families, only one parent - either the mother or the father — takes care of the children and raises them. Such family is called as a 'single-parent family'.

Single -Parent Family

Discuss

- What type of family does Meena have?
- What type of family do you have?

Seema's friends, Sushmita and Yasmin together drew a beautiful rangoli in front of the door. Abhi's friends, David and Gurudeep decorated the door with flowers.

Meena's neighbours had also come to help. Whenever there is a function at someone's house, all of them celebrate it together. When in need, they also help each other. Last year, Meena's grandfather was ill. During that time the neighbours helped a lot. In holidays, kids from the neighbourhood gather in Meena's courtyard in the evenings. Meena's grandmother tells them interesting stories.

Share with us!

Which festivals do you celebrate with your neighbours?

Do You Know?

We, our family, friends, colleagues, neighbours and others are all parts of our society. Different families come together to form a society.

Meena had a dog and a cat in her house. Meena's dog - Motya was very happy to see so many people in the house. He was moving around the house wagging his tail. After the meal, few family members sat to play Snakes and Ladders and Motya also came and sat with them. However, after drinking the milk, the Mani, the cat as usual was fast asleep in a corner.

Playing Snakes and Ladders

Two clay bowls are kept in one corner of Meena's courtyard. Meena keeps water and nuts in them for the birds every day.

- The trees, animals and birds in our surroundings are important parts of our life.
- We plant trees and take care of different animals and birds.
- We come together for celebrating different festivals and functions and share our joy.

Let's Write.

Daily task/ work	Who does this work at home?
Cooking	
Cleaning the house	
Washing clothes	
Shopping from the market	
Taking care of elders / sick people	

Observe what the people in the pictures are doing and write in the boxes.

Whether a family is small or big, the members of the family live together happily. They take care of each other. They help each other and share the work. They have feelings of love and respect for each other. The environment in a family is safe. Many families from different cultures together form a society. Happy families together create a happy society.

Try This

- * Make a list of the members of your extended family.
- * Find out about the people in your neighbour's family.

Exercise

Q.1 Write who it is.

- (a) The one who was with maternal uncle and aunt
- (b) The one's who were supervising all the work
- (c) The one's who were helping the elders
- (d) Meena's (paternal) cousin brother

Q.2 Write who lives in these families.

Small family

Single-parent family

Big family

Q.3 Write what household work is done by the following members of your family ?

- (a) Mother.....
- (b) Father.....
- (c) Grandmother.....
- (d) Grandfather.....
- (e) I/Myself
- (f) My brothers and sisters

Q.4 Correct the following statements and write them again.

- (a) Seema is Meena's paternal cousin sister.
.....
- (b) An extended family includes only the relatives from the father's side.
.....
- (c) Pets are not members of the family.
.....

Q.5 Answer in two or three sentences.

- (a) How did different family members help in preparing for Abhi's wedding?
- (b) Which of our needs are fulfilled in our family?
- (c) Which is your favourite domestic animal? How do you take care of it?

Activity

- Collect photos of your relatives and paste them in a scrapbook. Write your relationship with each person in each photo below it.
- Make a list of the domestic animals and birds found in your neighbourhood.

2. Family Tree

While cleaning the cupboard, Varsha found the wedding album of her parents. When she looked through the album, the people in the photographs looked a little different from how they looked today. There was a photograph of the whole family along with her parents in that album. Varsha asked her mother about the photograph. Her mother started to explain. She said, “Varsha, this is a photograph of our whole family together. Let’s see how many people in this photo you can recognize.” Varsha looked carefully at the photograph and told the names of the relatives she recognized. However, there were some people whom she could not recognize.

“Mother, who is this in this photo?” Varsha asked. Her mother replied, “Varsha, she is your father’s grandmother.” Varsha was happy to see her father’s grandmother, that is, her great-grandmother. She could see the photographs of her parents, her parents’ parents (her grandparents), and her grandfather’s mother (her great grandmother). Through this, she came to know about three generations of her family — her father, her grandfather, and her great-grandfather. A ‘generation’ means the people who lived before us in a family. In this way, Varsha was able to make her family tree using information about her parents, grandparents, and their parents.

I am your father's
mother,
Who am I to you?

I am your
father's son,
Who am I to you?

I am your mother's
mother,
Who am I to you?

I am your mother's
father,
Who am I to you?

Who am I

I am your father's
father,
Who am I to you?

I am your father's
brother,
Who am I to you?

I am your father's
daughter,
Who am I to you?

I am your father's
sister,
Who am I to you?

Family Tree

A family tree is an arrangement of the members of a family according to different generations. It includes the names of mother-father, grandmother- grandfather, great grandmother and great-grandfather.

A family tree is like a short history of our family. We learn about our family's history through the family tree. It helps us know who our ancestors were. We also come to know the names and the surnames of the members of our family.

Let us understand the concept of Family Tree with the help of the following diagram-

Let Us Understand

Varsha's Family Tree

Why do we study a family tree?

- * **To know our family history :** We study a family tree to learn about our family's past and our ancestors.
- * **To understand relationships :** It helps us understand how family members are related to each other.
- * **To know our roots :** It helps us find the origin or background of a person or a family.

How to make a family tree?

A family tree is shown in the form of a big tree that represents a complete family. The tree grows bigger with the birth of the next generation. A family tree helps all family members learn about their ancestors. It helps in introducing the members of older generation to the younger generation.

Exercise

Q.1 Match the pairs.

Group A	Answers	Group B
(1) Mother's brother	-----	(a) Paternal aunty
(2) Father's sister	-----	(b) Paternal uncle
(3) Mother's sister	-----	(c) Maternal uncle
(4) Father's brother	-----	(d) Maternal aunty

Q.2. Write whether the following statements are true or false. Correct the wrong statements and write them again.

(a) A generation means the people who lived before in a family.

(b) All relatives from the father's side do not have the same surname.

(c) We cannot understand the history of a family by studying a family tree.

Q.3 Identify and write.

Sometimes we fight, sometimes we laugh. While playing together, he even makes me cry. He enjoys food prepared by our mother, he is no one else but my -----	A tree of love, a roof of care; Without her, life feels hard to bear. She is my real protector and that is how I describe my -----	My father's sister pampers me a lot. Brings me toys and sweets. She is my -----	Mother's brother takes me out for a drive, I like him because he plays with me and gives me snacks. He is my -----
---	--	---	--

Q.4 Write your relations with-

Relatives from mother's side : -----

Relatives from father's side : -----

Q.5 Write answers in two to three sentences.

- (a) What information do you get from a family tree?
(b) How is a family tree prepared?

Activity

- Discuss about your family members with your parents. Collect photos of your father's side of the family. Make a family tree using them.
- Make a list of the surnames of your mother's side of family with the help of your parents.

3. My School

We go to school

Let's write, read and study

Let's play and exercise

Let us grow wise,

And go to school.

Let's sing and put up a play

Let's draw and dance

Let us be smart,

And go to school.

Let's have fun with
friends

Let's grow and
make a name for
ourselves

We are the future
of our nation

Let us go to school.

This school is dear to me from the depths of my heart.
It showers love and affection on me like a mother does on her child

The school playground was decorated with colourful flags. It was the annual sports competition of the school. There was a lot of excitement among the children. Rohit stood first in the running competition. His competitor Mihir congratulated him. The kabaddi matches started after that. Neeta's team came to play on the ground. The children were cheering loudly to encourage them.

Girls playing kabaddi

Tell Us!

*** Which games do you play on the school playground?**

What is a school?

A school is a place where we go to learn. It is a place where we learn to follow rules.

We learn discipline by coming to school on time, wearing the school uniform, and standing in a line for the school assembly. Girls and boys from different families come to school to learn. We have friendly relations with them. We spend time together with our friends. We help each other. We take care of each other.

We learn to respect our teachers. Teachers teach us different subjects in school. We have a student-teacher relation with them. In school, we learn how to behave in society. By learning all this we become good citizens. Like our family, school is also important in our life.

Do You Know?

The school uniform creates a feeling of equality, discipline and unity among students. It also creates a sense of belonging towards the school. The school uniform is the identity of the school.

In the picture given below, there are resources needed for school. Identify them and write their names under the pictures.

- **Physical components :** School building, blackboard, chalk, duster, benches, bell, books, notebooks, pencils, eraser, CCTV camera, complaint box, laboratory, playground, boundary wall, facility for drinking water, marker, whiteboard, smart board, slate, ramp, library, backyard, computer room, first aid box, separate toilets for boys and girls, hand-wash station, school bus, etc.

Do You Know?

Have you observed a sloping path built next to the stairs in the school? This slope is called a 'ramp'. The children with special needs can easily move in and out of the school using wheelchairs because of the ramp.

- **Human components :** Students, parents, teachers, Principal, office staff, cleaning staff, cooks and helper for the mid-day meal, etc.

There was an election for the School Council of Ministers in Viraj's school. The Chief Minister, Discipline Minister, Cleanliness Minister, Study Minister, Cultural Minister, and Sports Minister were to be chosen. All the students voted. Viraj was elected as the Cultural Minister. So now, he would have to take responsibility of the cultural programmes conducted in the school.

School Council Election

Activity - Cleanliness Week is to be celebrated in the school. Divide your class into three groups and share the work in the table below.

Group 'A'	Group 'B'	Group 'C'
-----	-----	-----
-----	-----	-----

- Students take responsibility for doing different tasks in school.
- School gives us knowledge. It teaches us to solve problems. It teaches us to work together. That is why school is a very useful institution for the society.
- In School, everyone develops a habit of speaking, sharing their thoughts and listening to the opinions of others. We learn the values of democracy in school.

This is how the work of the country is carried out. This is called as Democracy.

Tell Us!

- * Which place in your school do you like the most? Why?
- * If you were made a teacher for one day, what all preparations would you do?

Try This!

Niranjan has drawn outline of a map.

Now, you draw an outline of a map from your house to your school.

Home to School Map Outline

Right to Education : The Government of India has introduced a law called as the 'The Right of Children to Free and Compulsory Education (RTE) Act, 2009'. According to this law, every boy and girl in India has the right to get education.

Did You Know?

Mahatma Jyotirao Phule

Mahatma Jyotirao Phule and Savitribai Phule worked very hard so that girls could get education. On the 1st January 1848, Mahatma Jyotirao Phule started a school for girls at Bhide Wada in Pune. This is the first girls' school in Maharashtra. In the beginning, both Jyotirao Phule and Savitribai Phule worked as teachers in this school. Savitribai Phule was the first woman teacher of India.

Savitribai Phule

Exercise

Q.1 Make a list:

Things that you like about your school.

Q.2 Classify the following items into the table given below:

(School building, Teacher, Toilet, Principal, Mid-day meal cook, Library, Students, Laboratory, Ramp, Parents, Playground, Complaint box, Computer room)

Physical Components	Human Components
.....	
.....	

Q.3 Complete the following activity.

Write one sentence about the work of the following people in your school :

**Mid-day meal
cook**

**Class teacher
Class friends**

Principal

Parents

**Cleanliness
Minister**

Q.4 What do you do here?

Reading corner

Playground

Backyard

Q.5 What are the different things you learn at school?

Activities

- What facilities should be there for students with special needs? Take the help of your teacher and write.
- Discuss with your friends how technology helps in school studies and write its uses.

4. Market

Children's Fun Fair—Children are selling different things and parents are buying them.

A children's fun fair is like a small market, where students set up stalls to buy and sell things. At the fair, Neha and Salil had put up a stall to sell the greeting cards that they had made. After the fair, they were counting money that they had earned.

“Hey Salil, we earned more money and made a profit!” said Neha happily.

“Next time, let's paint and sell *diyas* along with greeting cards,” said Salil.

Tell Us!

- Have you ever participated in a children's fun fair? Did you buy something or sell something?
- What would you like to sell at children's fun fair?

A market is a place where different kinds of things are bought and sold. A person who sells things is called a 'seller'. A person who buys things is called a 'customer'. Many people come together in a market for buying and selling.

Did You Know?

There are many types of markets. Markets are in a City as well as in a Village

Let's first visit a weekly market in a village. This is the market in Raghu and Rama's village. They have come to the market with their mother and father. This is a weekly market. Weekly market means a market that is held on one fixed day every week. This market is held every Wednesday.

People eagerly wait for the weekly market. Farmers from nearby villages bring fresh vegetables and grains from their farms to sell. Many artisans come to sell different kinds of things. Nowadays, weekly markets are also held in cities. In such markets, buyers and sellers know each other well. People get a chance to meet during the weekly market.

Weekly Market

The weekly market is set up in an open space near the village. Some sellers were sitting on the ground with their goods spread out on a piece of cloth in front of them. Some had set up small temporary shops on wooden benches.

The market was filled with variety of products such as fresh green leafy vegetables, colourful flowers, fresh fruits, spices, papad, chips and snacks as well as sweets. There were many other things too, such as cotton clothes, caps, sarees, clay and metal pots, baskets as well as farming tools. Sellers were advertising their products by loudly calling out to attract customers. In some places, customers and sellers were bargaining over prices. Overall, the market was full of energy, excitement, and noise.

As his father had told him, Raghu had brought a shopping list which he had prepared at home.

Rama had brought along a few small and big cloth bags.

Think About It.

Why should we always carry cloth bags with us when we go to the market?

Few members of the family were going to observe a fast the next day and so, fruits had to be bought for them. A cart full of fresh fruits stood at the entrance of the market. All the fruits were nicely arranged on the cart.

“Good morning, uncle. Please give me one dozen bananas,” Raghu said.

“Father, let’s buy guavas too,” Rama said, looking at the fresh green guavas.

“Alright! Please give one kilo of guavas,” said father. He bought one dozen bananas and one kilo of guavas.

While buying vegetables, Rama requested, “Father, please buy anything except bitter gourd and dill leaves.”

Then father explained to her, “Rama, some things are not done just because we like them, but because they are necessary. It is the same with food. Every vegetable has its own nutrients. Shouldn’t our body get all of them? We should eat foods with all tastes sweet, bitter, spicy as well as sour to stay fit and healthy. We will also buy your favourite ladyfinger and Raghu’s favourite spinach.”

Looking at the shopping list, Raghu said, “Father, now we have to buy snacks and sweets from Mansukhlal uncle’s shop. Grandma has asked us to bring cotton for lamp wicks. We also have to buy a broom. Our neighbour aunty could not come to the market, so she has asked us to bring one kilogram of green chillies for pickle.”

After finishing all the shopping, Father bought red and green lacquer bangles for Rama and a spinning top for Raghu.

Just then, Rama saw big baskets filled with colourful glass beads and brass bells. Her friend Varsha and her grandfather were shopping there.

“Oh, they have a cowshed, right? They must be buying colourful beads and bells for the garlands worn by their bullocks named Dhavalya-Pawalya and cow named Kapila. These are used for decoration during ‘Bail Pola’”, father said.

Do You Know?

Just like we have markets for daily things, there are also weekly markets for animals. The weekly market at Sangola in Solapur district is famous for Khillar cows and bullocks. In this market, there are separate sections for cows, bullocks, buffaloes, goats, and sheep. Sunday is the market day. Khillar bullocks are in great demand for bullock cart races. Similar markets are held in many other villages.

Weekly Animal Market at Sangola

Raghu wanted a clay pot to keep water for the birds in summer. Mallappa’s shop was known for good quality clay pots. They bought a big ‘paral’ (earthenware pot) from there. A ‘paral’ is a wide yet shallow clay pot.

Raghu, and Rama and their father enjoyed sugarcane juice at the market. Then they returned home with bags full of shopping. Rama and Raghu together wrote down the expenses.

Supermarket

Mother and father sometimes go to a Supermarket. Super market is a place where many variety of useful things are sold in one shop, such as groceries, vegetables, fruits, bread, biscuits, soaps, shampoos, cosmetics, household items and stationery. Such supermarkets are generally found in cities.

Supermarket

Shopping Mall

A shopping mall is also a type of market. In big cities, there are many shops in a building with several floors. There are escalators and lifts to move around. In a mall, we can buy fruits, vegetables, grains, as well as toys, clothes, furniture, electronic items and household goods.

Shopping Mall

There are places for people to sit. There are stalls for food and drinks. Everything is available under one roof in such shopping malls.

All products have price stickers. The barcode on the sticker is scanned to check the price after shopping. A receipt is given after shopping. Payment can be made in cash or online.

Do You Know?

A market is usually a place where buying and selling happen every day. A market that is held on a fixed day or for a fixed time is called a 'haat' (weekly market) in Marathi. We also use the word 'bazaar-haat' in Marathi. A market where only one type of goods, such as utensils or cloth, is sold is called a 'Ganj'. For example: Kapadganj (a cloth market).

Tell Us!

- Which market is near your house? Do you like going to the market?
- What do we learn when we visit a market?

Let's Become Aware Customers.

A consumer movement was started to protect customers from cheating such as mixing impurities in goods/products, charging higher prices, cheating in weights and measures etc. Customers should be careful while buying things. Customers should check the correct weight and the right price of the products.

Exercise

Q.1 Write the names:

- (a) The person who sells goods
- (b) The person who buys goods
- (c) The place where buying and selling of goods takes place

Q.2 Complete the concept map of types of markets and the goods sold in them.

Q.3 Look at the bill/ receipt of the items bought from the shop and answer the following questions :

- (1) What kind of a shop is this?
- (2) Write the names of the items bought as shown in the receipt.
- (3) Write the date of purchase mentioned on the receipt.
- (4) According to the receipt, what is the total amount to be paid to the shopkeeper?
- (5) Has the shopkeeper given any discount? If yes, how much?.....

Tax Invoice (Bill for Purchased Goods)

Rankala Chowpatty, Kolhapur – 416012 Mobile: 9999900000 Email: toynjoy@gmail.com							
Invoice No.: 25-26/099				Invoice Date: 1 st January, 2026			
Item	HSN Number	Taxable Price	GST				Price with Tax
			CGST Rate		SGST Rate		
			Rate	Tax	Rate	Tax	
Battery Train	9503	₹ 400	9%	36	9%	36	₹472
Tricycle	9504	₹ 300	6%	18	6%	18	₹336
			Total amount				₹808

Q.4 Complete the following table.

Weekly Market	Supermarket	Shopping Mall

Q.5 Write the reasons.

- (1) Rama carried cloth bags with her while going to the market.
- (2) Father told Rama that some things are done not because we like them, but because they are necessary.
- (3) The sellers were loudly calling out to advertise their goods.
- (4) Raghu had brought a shopping list from home.

Q.6 Write short answers for the following questions.

- (1) What all did Rama's father buy from the market?
- (2) Prepare a list of instructions to follow while buying things.
- (3) What is the use of the barcode system?

Activity

- Visit a market in your area and write about the activities you see there.
- Collect and write information about an animal market in your area.
- Visit a supermarket, a shopping mall and write about your experience.

5. Our Needs and Problems

Observe the picture given above.

A person needs many things to live every day. The picture shows two important things: water and food. Think about what else a person needs and write it in the box above.

Think about everything you do from waking up in morning till sleeping at night. Think of what things you need to do these activities. These things are called as 'Needs'.

The things without which it becomes difficult for a person to live are called as 'basic needs'.

*** Basic needs : Food, clothing, shelter, health, and education.**

Think

*** What will happen if there is no water supply at your home?**

Things we need and things we like

Is there any difference between these two?

Yes! Definitely. Needs are the things without which it is difficult for us to be alive. For example, we cannot be alive without food and water. Things we like are the things that make our life more enjoyable and comfortable. We can live even without the things we like. These things are also called as wants.

Raju loves to eat sweets. He eats a lot of sweets every day. Is this right?

All necessary things may not be our favourites. Also, all the things that we like are not always necessary.

In short, needs must be fulfilled, but we can control our wants.

Decide which of the following are needs and which are wants. Write 'Need' or 'Want' in the box given.

1. Grains	2. Wafers / Chocolate
	
3. Soft drinks	4. House
	
5. Water	6. Toys
	
7. Clothes	8. Books
	

Now let us learn about our basic needs.

Water : Water satisfies our thirst. Like Humans, animals, birds, and plants all need water. If they don't get water, they cannot survive. That is why water is called 'Jeevan' in Marathi, meaning 'life'.

Rain is the main source of water and water is a public resource. Everyone has a right to it.

Try This

Show how and from where water reaches your home with the help of a concept map.

Food : Along with water, food is also necessary for human beings to survive. Everyone should get enough as well as nutritious food. It is also our responsibility not to waste food.

Tell Us!

- What food do you eat every day?
- Where do these food items come from?
- How can we make sure that everyone at home gets enough food?

In which of the above places would you like to live? Why?

Air : Clean air is necessary for good health. Breathing clean air keeps our body and mind healthy. It also keeps our lungs strong. We feel fresh, active and we get energy to run, play and do our daily work. Sometimes the air gets polluted when smoke from vehicles, factories, mix with the air. This affects our health.

Tell Us!

- Is the air in your area clean?
- What steps are taken to keep the air clean?

Clothing : We need clothes to protect our body from heat, wind, and rain. We wear different types of clothes in different seasons. Everyone should have enough clothes according to their needs.

Shelter : Everyone needs a safe place to live because it gives us protection. A shelter means a safe place to stay. Our shelter is our house. Whether we live in a village or a city, our house is built according to the climate and the facilities available there.

Health : Good habits and healthy food help us stay fit. Regular exercise, Yoga and Pranayam helps us to be healthy. Only when we are healthy can we do our daily tasks and take care of ourselves along with our family. People may fall ill because of different reasons. Proper health-care treatment and medicines are needed at such time. For this, there are primary health-care centres in villages. There are several

small and big hospitals in cities. People get treatment according to their needs.

What Do You Think?

What can be done to stay healthy?

Education : Education is important for everyone in society. The government makes available different plans and facilities so that education reaches all people. We can understand many things through education. It helps us think clearly, solve problems and create new things.

Food, clothing, shelter, health and education are the basic needs of human beings. To live a good life, it is important that everyone's basic needs are fulfilled.

Tell Us!

- Think about yourself, your family, and your surroundings. Can you think of any other needs ?
- Share some good thoughts or quotes about education and health.

Which of our needs are fulfilled by cleanliness workers, doctors, teachers, farmers, police, and soldiers?

Natural Resources : Resources are all the things around us that are useful to us and help us make our life better.

Resources are required to fulfil our needs. We use different resources from nature and our surrounding to satisfy our needs. These things we get from nature are called 'natural resources', for example- water. We should use water carefully without wasting it.

Human-made resources include money, property, means of transport, machines, etc.

Identify natural resources and human-made resources in picture.

Our Problems

We have already learned about our needs. Now, let's understand our problems.

A problem means the difficulties that we face in our daily life. When the things we need to live a good life are not easily available, it is a problem.

There is a problem of water shortage in Jagan's village. The water tank is empty. Rivers have dried up. Wells have no water. The water level in the dam has gone down. People in his village do not get enough water even for daily use. So, not getting enough water is a problem in his village.

Food shortage is a serious problem. Following can be the reasons for the shortage. Example- wet drought, dry drought, decreasing farmland, price rise, war etc.

Think

What problems do you see in your area? How can we solve these problems?

What problems do you see in the pictures above? How do these problems affect our daily life?

Social Issues and Facilities

Some people are born with illnesses while some may become physically disabled due to accidents. They have to face many difficulties in public places. That is why they need special facilities, support and care.

Tell Us!

You see a visually challenged person walking on the road. What will you do in this situation?

Visually challenged people can move around freely in public places with the help of a white cane. They can also read, write and do calculations with the help of a special touch-based script called Braille.

THE BRAILLE ALPHABET												
												
a	b	c	d	e	f	g	h	i	j	k	l	m
												
n	o	p	q	r	s	t	u	v	w	x	y	z

											Literary Code	
#	0	1	2	3	4	5	6	7	8	9		

Braille Script

Tell Us!

Have you seen a sloping path (ramp) near the stairs in your school? Why is it there?

Some people have disabilities. They are unable to walk properly. They may be born this way or it may have happened due to an accident. Such people cannot easily climb up or down stairs. Ramps are made to help such people. With the help of ramps, people using wheelchairs can easily go inside and outside the buildings. In some places, there are also special toilets designed for wheelchair users.

Tell Us!

Do you know about sign language?

Sign language is used by people who cannot hear (Hearing Impaired). They understand what others are saying by watching the movement of lips and by observing facial expressions and gestures. There are also special news programs in sign language on Doordarshan for people who are hearing impaired.

It is important to create a barrier-free environment for persons with disabilities. The government tries to provide different facilities so that they can move easily in public places like schools, offices, public buildings, health-care centres and entertainment places.

A sign language used in India

- Use the link given in the QR code at the beginning of your textbook to learn and understand sign language.

Did you know?

Murlikant Petkar : Murlikant Petkar is originally from Sangli. The Paralympics were held in Heidelberg, Germany, in August 1972. In this competition, he set a world record and won a gold medal for India. He was honoured with the 'Padma Shri' award in 2018. Murlikant Petkar was a member of the Indian Army. He was injured by bullets during the India-Pakistan war of 1965, which caused him disability. Even then, he showed great excellence in sports like boxing, javelin throw and shot put.

Sheetal Devi : Sheetal Devi is from the state of Jammu and Kashmir. She has won many gold medals in archery in competitions for persons with disabilities. The Government of India honoured her with the 'Arjuna Award' for her outstanding achievements.

Exercise

Q.1 Fill in the blanks by choosing the correct option.

(a) Drinking water is purified at _____.

(1) Borewell

(2) Water purification centre

(3) Water tank

(4) Factory

(b) In a village, medical treatment is available at _____.

(1) Gram Panchayat

(2) Bank

(3) Primary health-care centre

(4) School

(c) We should use natural resources _____.

(1) as we like

(2) in large amounts

(3) sometimes

(4) carefully and wisely

Q.2 Write reasons for the following statements.

- (1) Sometimes, there may be a shortage of food in the country.
- (2) It is necessary to control our wants and desires.
- (3) Water is called 'Jivan' in Marathi which means 'life'.

Q.3 Read the following statements and write their benefits.

- (1) It is everyone's responsibility not to waste food.
- (2) Everyone should have a safe shelter.
- (3) It is important that everyone stays healthy.
- (4) Everyone in society should get education.

Q.4 Complete the concept map.

Q.5 What will you do in the following situations?

- (1) People are wasting food at a wedding ceremony.
- (2) A person with a disability is crossing a road.
- (3) Your neighbour Ramesh does not go to school regularly.
- (4) Kavita always drinks soft drinks because she likes them.

Q.6 How is International Yoga Day celebrated at your school?

Activity

- Collect pictures of clothes worn in different seasons and write their names below each picture.
- With the help of your parents, write about the facilities provided by the government for persons with disabilities.
- With the help of Internet, collect information about the performance of Indian players with disabilities, in national and international competitions.

21st June – International Yoga Day

6. Water Literacy

Let every drop of water found
Seep into the ground
Water is true prosperity
Let us learn the lesson of water literacy.

Water is important for life. Water Literacy means understanding the importance of water, saving water and taking efforts to increase the level of underground water.

The great saint Dnyaneshwar explained the importance of water in his work 'Dnyaneshwari'. He said:

**“Build good towns, create water reservoirs,
Plant big forests of many kinds.”**

**| ‘Nagare chee rachavi | Jalashaye Nirmavee |
Mahavane Lavavi | Nanavidhe’ |**

॥“नगरे चि रचावी। जलाशये निर्मावी।
महावने लावावी। नानाविधे॥” ॥

Saint Dnyaneshwar

This means that while building towns, we should also create water storage systems and plant many trees. This helps in avoiding water problems in the future.

We need water to live. The main source of water is rain. However rainfall is not the same everywhere. In some places, it rains very heavily and causes floods; while in the other places, there is very little rain, leading to drought. Thus, it is important to manage water wisely so that everyone gets enough water.

Did You Know?

There was once a severe shortage of water in Latur. At that time, the government supplied water to the city by sending it through trains.

In India, there is a particular time every year when it rains. This season is called the monsoon (rainy season). The dams are built on rivers to store and use rainwater throughout the year. The water stored in these dams is purified and then supplied to people through taps.

Tell us!

* What do you do to save water?

Water management has been important since ancient times in India. During the Indus Valley Civilization, wells were built in the close surrounding of houses to provide drinking water. Later, during the time of Gautama Buddha, several monasteries were built for monks. While travelling, caves were used as places to rest and live during the rainy season. Rainwater was collected and stored there for drinking, and this was called 'Paanpodi'. Such water storage systems can still be seen in the viharas near Junnar in Maharashtra. Emperor Ashoka built wells and provided water facilities for travellers.

Water storage at Shivneri Fort-Paanpodi

There is a place called Shikhar Shingnapur in the Man taluka of Satara district. On the hill where the temple of Shambhu Mahadev is located there was no facility for water. So, Maloji Raje Bhosale, the grandfather of Chhatrapati Shivaji Maharaj, built a large water tank there.

Shivteerth tank at Shikhar Shingnapur

Ganga Sagar Tank – Raigad Fort

Chhatrapati Shivaji Maharaj used to say, “Before building a fort, make sure there is water available there.” This means that a fort should be built only in a place where drinking water can be easily found. He got many small and big water tanks built to store water at Raigad Fort. Rainwater would be collected and stored in these tanks. He also advised people to keep water bodies clean and to use water carefully and wisely.

Punyashlok Ahilyabai Holkar also did great work for water management. She got wells dug and built tanks as well as ponds so that everyone could get water easily. She made special arrangements to provide drinking water for travellers by building water points. We can still find these today, for example, Top Bavdi at Igatpuri and the Malhar Gautameshwar Tank at Jejuri.

Top Bavdi at Igatpuri

Gautameshwar Tank at Jejuri

Rain Water

Groundwater Conservation: Rainwater falls on the roofs of houses, on roads, on hill slopes, and on the ground. To save water, we can guide the waterflow into tanks or allow it to seep into the ground where it gets stored in soak pits. As a result, the water level in the ground increases. The wells are filled with water. This helps maintain soil moisture and keeps the environment balanced. Due to tree plantation and conservation, soil erosion is reduced. The roots of trees help water seep into the ground.

Did You Know?

‘Vanarai’ is a voluntary organization. Former Union Minister Mohan Dharía established this organisation in Pune. Through this organization, Vanarai bunds (small check dams) are built. These are low-cost structures. They help increase the groundwater level by stopping water in streams or drains and allowing it to seep into the ground. They are useful for agriculture and drinking water.

Saving Water: The sources of drinking water on Earth are limited. Rain does not fall equally everywhere; its amount varies from place to place. The population is increasing, and therefore the demand for water is also rising. Hence, it is necessary to use water carefully. Along with this, it is also important to keep water sources clean and prevent water pollution.

Did You Know?

Reuse of water is the need of the hour: In Jakatwadi village of Satara district, wastewater coming out of houses is collected and purified. The treated water is then used again for fruit orchards, backyard garden and for maintaining cleanliness. The process of reusing water is majorly seen in cities.

Think about it!

How can you reuse the water that has already been used at your home?

Good habits to save water-

- * Use only as much water as you really need.
- * Do not leave taps running. Repair leaking taps as soon as possible.

Water purification means making water clean and safe to use. Water gets polluted due to many reasons. This means harmful substances get mixed into it. If polluted water is used for drinking, daily use and farming; then it can be harmful to our health. So, it is very important to purify water before using it.

The reasons behind water pollution

Think about it!

- * What are the causes of water pollution?
- * What methods can be used to purify water?

Dr. Rajendra Singh

Waterman of India : Rainfall is very rare in the Marwar region of Rajasthan. People there do not get enough water for daily use or for farming. Dr. Rajendra Singh grew up in the same region and experienced this water problem himself. He started building 'johads'. These johads' are small earthen dams. These earthen dams helped to store rainwater. Wherever the Johad policy was implemented, that area became green and full of life. Due to this work, he is known as the 'Waterman of India'.

Anna Hazare

In Maharashtra, in Ahilyanagar district, Anna Hazare worked in Ralegan Siddhi, and Popatrao Pawar worked in Hiware Bazar to increase the level of groundwater.

Popatrao Pawar

Did You Know?

- * 10th May is celebrated as 'Water Conservation Day' in Maharashtra.

Water is very important for all living beings. So, it is everyone's responsibility to protect and conserve water. Let us become 'water aware' and save water!

Exercise

Q.1 Give reasons.

- (1) Dams are built on rivers.
- (2) Water had to be supplied to Latur city once by train.
- (3) Chhatrapati Shivaji Maharaj made arrangements for water at Raigad.
- (4) Dr. Rajendra Singh built johads.

Q.2 Answer the following questions in 2-3 sentences.

- (1) The water in your area has become polluted. Discuss with your parents and write the solutions.
- (2) Why is Dr. Rajendra Singh called the 'Waterman of India'?

Q.3 Observe the picture and answer the questions below.

- (1) According to the information on the bottle in the picture, how much water does it hold?
- (2) What is the price of that bottle?

Q.4 Read the passage below about groundwater conservation and answer the questions.

Groundwater Conservation : Rainwater falls on house roofs, terraces of buildings, hilltops and the ground. Instead of letting this water go to waste, it is collected in tanks using special methods or allowed to seep into the ground in soak pits. This helps in increasing the water level underground. This is the best way to fill wells. It keeps the soil moist. It plays important role in maintaining balance in the environment. Planting and protecting trees also helps to prevent soil erosion. The roots of trees help to hold water in the soil.

Answer the following questions:

- (1) Where does rainwater fall?
- (2) What helps to increase the ground water level ?
- (3) What is done to allow rainwater to seep into the ground?
- (4) Write any two slogans based on this passage.

Activity

- Find information about the work done by Dr. Babasaheb Ambedkar in the context of water issues with the help of your teacher.
- With the help of your parents, learn about the schemes 'Jalyukt Shivar Abhiyan' and 'Har Ghar Jal' and write their benefits in short.
- How is rainfall measured in your area? Observe the instrument with the help of your teacher.
- Collect pictures of dams in Maharashtra and paste them in your notebook.

Satyagraha at the
Chavdar Lake

7. Indian Traditions and Cultural Diversity

What kinds of diversity can you see in the given picture?

Unity in Diversity

Our country, India, is a beautiful land full of different cultures. It has a history of thousands of years.

The different languages, literature, art, festivals and religions of India come together to form Indian culture. Even though we live in different parts of the country, we are all Indians.

What is Culture?

Culture means the special way of living our life as a part of society. It includes many things such as language, clothing, food, festivals, religion, ways of worship, art, skills, literature and celebrations.

Festivals

Different festivals are celebrated in different parts of India. Many of these festivals are connected with farming and seasons in India. Farming is the main occupation in our country. That is why India is called an 'agricultural country'.

Festivals in India

Bail Pola is an important festival in Indian culture. Bulls are worshipped on this occasion. Bulls help farmers with farming activities and many other tasks. This festival is celebrated not only in Maharashtra but also in many other states of India such as Madhya Pradesh, Chhattisgarh, Karnataka, Telangana, Andhra Pradesh and Tamil Nadu. In each state, this festival is celebrated with different names, in different ways and on different days.

In Maharashtra, this festival is known as Bail Pola. In Marathwada region, it is celebrated on the new moon day of the month of Shravan. In Western Maharashtra, it is celebrated on the new moon day of the month of Bhadrapada. In some places like Nagpur, it is celebrated for two days as 'Motha Pola' and 'Chhota Pola'.

Bail Pola

This festival is known by various names in different states of India. It is called as 'Pola' in Chhattisgarh and Madhya Pradesh. In Karnataka, it is known as 'Bendur' or 'Bendi'. In Telangana and Andhra Pradesh, it is celebrated as 'Iruvak Purnima', while in Tamil Nadu, it is called as 'Mattu Pongal'. This festival is known as 'Govardhan' or 'Godhan' in some parts of North and West India.

Let's find out

People decorate their houses with torans (door hangings) and draw rangoli in front of their doors on this special day. The bulls are bathed, cleaned and decorated. Their bodies are painted and beautiful decorated cloth is placed on their backs. Their horns are decorated and they are dressed with ornaments like headpieces, shell garlands as well as bells. The bulls are taken around the village in a procession with music and instruments. When they come in front of the house, people welcome them, worship and perform rituals. They are given puran poli as a special treat. Bulls are supposed to rest on this special occasion.

Diwali is one of the biggest festivals in India. It is a time when families come together and celebrate with happiness. Ganesh Festival and Dussehra are also important Hindu festivals.

Religions and their Festivals

Religion	Festival
Hinduism	Diwali, Ganesh Festival, Dussehra
Buddhism	
Jainism	Mahavir Jayanti, Paryushan Parva
Islam	
Christianity	Christmas
Zoroastrianism	
Sikhism	Guru Nanak Jayanti

‘Buddha Purnima’ is an important festival in Buddhism. ‘Mahavir Jayanti’ and ‘Paryushan parva’ are special festivals in Jainism. ‘Eid-ul-Fitr’ (Ramzan Eid) is a major festival for Muslims. ‘Christmas’ is celebrated by Christians. ‘Navroz’ is celebrated by Parsis and ‘Guru Nanak Jayanti’ is an important festival for Sikhs. The most beautiful thing about India is that no matter whose festival it is, everyone celebrates it together with joy and share good wishes.

Independence Day and Republic Day are national festivals that are celebrated across the country with great enthusiasm by all citizens.

People come together because of festivals. It helps in creating unity among people. During festivals, people sing songs, dance, draw beautiful rangolis, play games, and participate in competitions. This is also a great time to enjoy different forms of art. Fairs are held in several villages in India. During these fairs, people who have gone away from their village for various reasons come back home to join the celebrations.

Variety in Food

People living in different parts of India eat different types of food. This happens because of differences in climate and crops. People in Punjab mostly eat dal and roti. In coastal areas, people enjoy rice and fish. Every region has its own special dishes. For example, Maharashtra is famous for puran poli; while South India is known for idli and sambar etc.

Variety in Clothing

People who stay in different parts of India wear different types of attires. Women in Kashmir and Punjab wear salwar-kameez with dupatta. Women in Rajasthan wear colorful choli-ghagra, and chunri. Women in north-eastern states like Nagaland and Mizoram wear long flowing dresses. Saree is a very popular traditional outfit for women in India.

Men also wear different kinds of attires. Some wear pyjamas, some wear dhotis, and others wear lungis or trousers. They also wear shirts, kurtas, jhabbas, jackets or coats. Some men wear turbans, while others wear feta (traditional Indian Turban, usually worn during Indian weddings). Some people prefer wearing caps. Different styles of turbans and caps could be observed in different regions. Today, along with traditional clothes, people also wear modern outfits.

Sports

Variety of sports are played in India. Traditional sports like lagori, viti-dandu, atya-patya, wrestling, kabaddi, and fugdi are still popular today. Mallakhamb is a sport that makes the body flexible, strong and active. It also

helps improve concentration. Chess is an ancient Indian game. It helps improve thinking, intelligence and strategic planning skills.

Sports and Games are important in our lives. By playing sports and games, the values of cooperation and team work increases. Leadership quality is enhanced. Winning or losing is not the most important thing; what really matters is trying your best with persistence and enthusiasm. Every game has rules, and players must follow them.

Did You Know?

Kabaddi is a traditional sport from India and now is recognised all around the world! The Indian women's team won the first position in the International Kabaddi competition held in Dhaka

World Champion- Indian Women's Kabaddi Team 2025

Did You Know?

- › Khashaba Jadhav lived in Satara district in Maharashtra. He was an Indian freestyle wrestler. He won a bronze medal in the 1952 Helsinki Olympics. He was the first Indian to win an Olympic medal after India became independent.

Khashaba Jadhav

Koneru Humpy

- › Koneru Humpy is from Andhra Pradesh. She became one of the youngest female Grandmaster in India. She is an expert in the game of chess.
- › Divya Deshmukh is a 19-year-old chess player from Nagpur.

She won the Women's Chess World Cup in 2025. She has also won gold medals in Asian Championship, World Junior Championship and Youth Chess Championship.

Divya Deshmukh

Folk Arts

Folk Art is our cultural heritage. We gain happiness through these arts. It helps in creating awareness easily and our culture is also preserved.

Sant Gadge Baba used kirtans to teach people about the importance of education and cleanliness. Similarly, Annabhau Sathe, Amar Sheikh and D. N. Gavhankar created awareness among people through their performances.

Saints have given the message of equality to people. They taught people qualities of kindness, non-violence, helping others, service, equality and brotherhood. Shri Chakradhar Swami, Sant Namdev, Sant Dnyaneshwar, Sant Chokhamela, Sant Eknath, Sant Tukaram, Sant Goroba, Sant Narhari, Sant Muktabai, Sant Janabai, Sant Soyrabai, Sant Kanhopatra, Sant Bahinabai Shiurkar created public awareness through their Kirtans, Abhangs and Bharoods.

Punjab's Bhangra, Karnataka's Yakshagan, Goa's Ghodemodni dance, Nagaland and Meghalaya's Bamboo dance, Gujarat's Garba and Dandiya, Rajasthan's Ghoomar dance, Assam's Bihu dance and Maharashtra's Lavani are an identity of that state. Various types of painting, sculpture and architecture are also found across different regions of India.

Maharashtra's Various Folk Art

Lavani

Powada

Dashaavtaar

Bhajan/Kirtan

Bharood

Gondhal

Tamasha

Koli Dance

Punjab- Bhangada

Karnataka- Yakshagana

Goa- Ghodemodni Dance

Nagaland and Meghalaya- Bamboo Dance

Gujarat- Garba and Dandiya

Rajasthan- Ghoomar

Assam- Bihu

Maharashtra- Lavani

Dances of Various States

India is a country with great diversity in art, food, language, clothing, festivals and traditions. However, despite these differences, the most special feature of our country is unity in diversity.

Exercise

Q1. Complete the concept map :

Q.2 Write the names of festivals that are celebrated in each state.

State	Festival
(1) Maharashtra	-----
(2) Andhra Pradesh	-----
(3) Tamil Nadu	-----
(4) Kerala	-----

Q.3 Complete the table.

State	Clothing	Food
Punjab	----- -----	----- -----
----- -----	----- -----	Puran Poli
Rajasthan	----- -----	----- -----

Q.4 Which games are played in Maharashtra?

- (1) -----
- (2) -----
- (3) -----
- (4) -----

Activity

- Take the help of elders at home and collect information about different folk arts, clothing, food and games in your area. You can also use pictures to make it more interesting.
- Search for videos of different folk arts in Maharashtra using the internet and learn more about them.

8. Means of Transport

Dear student's, carefully observe the picture given above. Find the means of transport that you have seen or used and mark them ✓ in the box next to the picture

- Identify the vehicle that is used to travel very long distances on Earth. Put a mark ○ in the box next to it.
- Look at the other vehicles. Have you seen them anywhere before? When do you think they were being used? Talk about it with your friends and teachers.

From this activity, you will understand that people have used different types of transport in different time periods. The vehicles we use today are faster and safer than the ones used in the past.

Transport

Let us understand how transport works

People used animals to travel from one place to another in ancient times. Later, the wheel was invented. After that, people made carts with wheels and used domestic animals to pull them. Even today animal-drawn carts are still used in some places.

Machines replaced animals as technology developed over the period of time. Travel has become easier, more comfortable and faster because of vehicles.

Did You Know?

Hovercraft - a special vehicle that can travel on both land and water

Try it

Different means of transport

Land Transport		Water Transport		Air Transport	
Roadways	Railway	Inland Waterways	Sea routes	Domestic Airlines	International Airlines
-----	-----	-----	-----	-----	-----
-----	-----	-----	-----	-----	-----
-----	-----	-----	-----	-----	-----
-----	-----	-----	-----	-----	-----

Write the names of the following vehicles under the correct categories-
bus, train, car, helicopter, ferry boat, rickshaw, aeroplane, boat, bicycle, metro, railway, raft, ship.

Do the following activity

Write the meaning of the following traffic signal lights.

(1)

.....
.....

(2)

.....
.....

(3)

.....
.....

Match the following road signs with their correct meanings.

Group 'A'

Group 'B'

Do not park here.

Do not blow horn

Speed breaker

Men at work

School ahead

Transport of Goods

The process of carrying goods, materials or raw materials from one place to another is called transport of goods. Different types of goods are transported—from very heavy items to delicate things like glass. These goods are carried using vehicles such as trucks, trains, ships or aeroplanes, depending on the need. A train that carries goods is called as a 'goods train' or 'freight train'.

Things like water and gas are also transported through pipelines in big cities.

Let’s learn with the help of parents.

- Which vehicle does not need any fuel?
- Which animals are helpful while travelling in difficult hilly region ?

Ropeways - Ropeways are used in places where it is difficult to build roads. They are helpful in hilly and remote areas or even in mines. For example, the Raigad Ropeway.

Palanquin (Palkhi)- In earlier times, people used palanquins to travel

Metro

 Let us think

Imagine you want to visit the Tadoba Andhari Tiger Reserve in Chandrapur. You are planning to stay there for two days. How would you prepare for this trip?

- When will you start your journey?
- Which transport will you use?
- How much time will the journey take?
- What things will you need to carry?
- Which important places will you see on the way?

Did You Know?

- The first train in India ran from Mumbai to Thane on 16 April 1853. It ran on coal.
- The first metro train in India started in Kolkata
- During situations like floods, when no other transport can reach, parachutes are used to send help. Essential items can be delivered using parachutes.

Communication

The exchange of information and messages is called ‘communication’.

Think about it

If your friend lives in another village and you want to wish him or her on his or her birthday, which of the following means of communication would be convenient for you?

- Going to his/her house immediately
- Sending a letter or greeting card by post .
- Calling him/her on the telephone
- Sending a message on a mobile phone.
- Sending an email.
- Tying a note to a pigeon’s leg and sending it.

Did You Know?

Long time ago, messages were sent through pigeons. People trained pigeons for this purpose. Long ago, kings sent messages through messengers who travelled on horses or camels. This work was difficult and risky. Postal services were started later.

Postal Service

Through the post, we can send letters and parcels across the country and even to the other countries. A service called as ‘Speed Post’ is used in order to deliver important letters quickly. Vehicles like buses, trains, ships, and aeroplanes are used for such deliveries to send goods from one place to another.

Have you ever visited a post office? What did you see there?

Telephone

The invention of the telephone brought a big/revolutionary change in the world. People who were far away could easily talk to each other with the help of this new invention. It brought the world closer. The most modern form of the telephone is the 'mobile phone'.

Drone

Other means of communication

Messages and information are also shared through radio, television, magazines and newspapers. These help us learn and share many new things.

Did You Know?

- Postage stamps give us lot of information. They often have pictures of important people and events. For example- Birsa Munda was a great revolutionary leader. He took part in the freedom movement of India. This is his postal stamp.
- Some people collect stamps from India and other countries.
- The first post office in India started in Kolkata in 1774.
- The first civil airline in India, Tata Airlines, was started in Mumbai in 1932.
- Satellites are used worldwide for communication.

Birsa Munda

Satellite

Find Out.

- Who invented the telephone?
- Who invented the computer?

Exercise

Q.1 Write the names of the following.

- (1) Vehicles that move on roads
- (2) Vehicles that move in water.....
- (3) Vehicle that moves on railway tracks.....
- (4) Vehicle that move in the air.....

Q.2 Complete the Concept Map

Q.3 Circle the correct option

- (1) A train that carries goods- (Metro, Goods Train, Local Train)
- (2) A type of transport used in remote areas and mines- (Palanquin / Rickshaw / Ropeway)
- (3) A service used to deliver letters quickly- (Post / Speed Post / Telegram)
- (4) A bird used in olden times to send messages- (Eagle / Pigeon / Parrot)

Q.4 Travel Planning Activity

Look at the tourism map of Maharashtra given in the QR code at the beginning of your textbook. Now imagine you want to travel from your hometown to any place you like.

Answer the following

- (1) Which vehicles will you use?
- (2) Which big towns or cities will come on the way?
- (3) What will you mainly see there?

Q.5 Discuss about Mobile Phones in the class. Write about its advantages and disadvantages.

Advantages	Disadvantages
-----	-----
-----	-----
-----	-----

Activity

- Collect pictures of the means of transport used in ancient times. Paste them in your scrapbook and write their names.
- Find out what facilities are provided for specially-abled people in public transport. Take help from your parents and write about it

9. Historical Monuments

The second term began at Jeevan Shikshan Vidya Mandir School. The teacher entered the class and asked the students how they spent their holidays. She also asked who had travelled to different places. Some students raised their hands. The teacher said, “Send me photos on my phone of the historical places you visited. These can be caves, forts, palaces, the birthplaces of great people, museums or pillars. We will organize an exhibition of these photos in the next week.”

Think

What new activities can you do during your holidays?

The teacher entered the classroom and asked all the students to close their eyes. She instructed them not to open their eyes at all. Meanwhile, she pasted some photographs on the soft-board. The students could hear the sound of papers being pasted. When the teacher told them to open their eyes, they were surprised. All the students exclaimed with excitement, Wow!

They could see two or three big sheets on the board with photos of places they visited and monuments or things which the students had seen during their holidays. The students were very happy and excited to see the photos taken by them displayed on the classroom board.

The teacher said, “Now, one by one, tell us about the photos you have taken. Who would like to start first?”

Try This

Make a chart of photos of the historical places that you have visited. Display your chart in the classroom exhibition.

Uma raised her hand and said, “Ma’am, I went to **Shivneri** Fort with my parents. My parents told me stories about Chhatrapati Shivaji Maharaj, who was born there. I saw caves, water tanks, the temple of Goddess Shivai, strong fort walls, a steep cliff, and watchtowers at Shivneri fort. I will never forget this trip.”

Birthplace of Chhatrapati Shivaji Maharaj – Shivneri Fort

Nandivardhan (Nagardhan) fort

Lord Shri Ram temple at Ramtek

Just then, Nandu stood up and said, “I went to Ramtek in Vidarbha”. Ramtek is a town in the Nagpur district. There is a temple of Lord Shri Ram there. Every year, a fair is held here on the occasion of Ram Navami. The great poet Kalidasa wrote his famous epic ‘Meghaduta’ here.” There is also a fort on the hill called as Nagardhan Fort. All the students were enthusiastically looking at the photos.

The teacher showed a picture and asked, “Who has visited this Wada (residential place)?” Gargee raised her hand and said, “We went to Pune during our holidays. There, we visited the house of Mahatma Phule and

Mahatma Phule Wada and the Well

Savitribai Phule. There is a small well in the courtyard of the house. Mahatma Phule allowed everyone to use water in this well irrespective of caste and religion.” She added, “The **Phule Wada** has been declared as a heritage site by the Government of Maharashtra”

Gargi continued, “My mother told me that we are educated today because of the Phule couple. She also told me their story. Then we visited **Savitribai Phule Pune University**, which is named after Savitribai Phule.” She added, “The campus of this university is so big that we were slightly tired from all the walking within the campus. We saw museums, gardens, statues, laboratories, a library, and even underground passages.”

Gargi continued with her narration, “After that, we went to visit the **Dr. Babasaheb Ambedkar Museum** on Senapati Bapat Road. My mother told me how Dr. B. R. Ambedkar studied very hard and became a great person. In the museum, I saw the **Bharat Ratna medal** that he received. I learned many new and interesting things there. We visited one more interesting place in the neighbourhood. We went to ‘**Balbharati**’. This is a place where all our textbooks are made.”

Bharat Ratna medal

Lonar Lake

Jafar said, “I went to Buldhana. I saw the **Lonar Lake** there. It was formed by a meteor impact. My father told me that we should not drink the water of this lake and I was really surprised! On our way back, we also visited **Sindkhed Raja**, the birthplace of Rajmata Jijau.”

Lonar Lake

Fatima said, “I went to Mumbai. It was the first time I saw the sea in my life! I also saw the **Gateway of India** near the seashore.”

Amruta said, “I went to the Konkan region and visited the **Sindhudurg Fort**. It is a sea fort. We had to travel by boat in the sea to reach the fort. The boat was moving along the waves that went up and down, which was a new experience for me! It was the first time I saw a fort in the middle of the sea. And the most amazing part about this fort is that it has a well with fresh, drinkable water right inside it!

Sindhudurg Fort

Amruta continued, “After that, we saw a ropeway and travelled in it to reach Raigad Fort. Raigad is a grand and majestic fort. It is the place where the Coronation of Chhatrapati Shivaji Maharaj took place. This fort was the capital of Swarajya. I liked this fort very much. The samadhi (memorial) of Chhatrapati Shivaji Maharaj is also located on this fort.”

Raigad Fort

Tell Us!

- › Briefly explain about any historical place you have visited.
- › What care should we take when we visit a historical place?
- › With the help of your parents, find information about the forts in Maharashtra that are included in the World Heritage list and talk about it in the class.

The teacher said, “See how many new things we learned today! Visiting old monuments, learning about them and exploring such places is called a heritage tour. Today, we experienced a heritage tour through photos. Actual heritage tours are also organized to such historical places. These heritage tours help us learn a lot about old objects and monuments. We should definitely visit them.”

The teacher added, “We must take care of these places, right? We should not write our names on these historical monuments. We should not throw garbage there. We should not litter plastic bottles. These historical places are our heritage and we must protect them carefully.”

Exercise

Q.1 Complete the Concept Map.

Q.2 Match the following.

Group 'A'

- (1) Ramtek Temple
- (2) Birthplace of Rajmata Jijau
- (3) Dr. Babasaheb Ambedkar Museum

Group 'B'

- (A) Sindkhed Raja
- (B) Senapati Bapat Road, Pune
- (C) Nagpur

Q.3 Write the correct answers.

(1) The university named after Savitribai Phule -

(2) The place where textbooks are prepared -

Q.4 Correct the following sentences.

(1) Sindhudurg is a hill fort.

(2) We have to use a ropeway to reach Shivneri Fort.

Q.5 What care should we take?

Activity

- Visit any historical place in your area and write information about it.
- Collect pictures of forts and paste them in your scrapbook.
- Please refer QR code on the first page of this text book to know more about Mahatma Phule's story included in monthly 'Kishor'.

10. Stories of Bravery and Revolution

Chhatrapati Shivaji Maharaj

Mahatma Jyotirao Phule

Savitribai Phule

Maharaja Sayajirao Gaekwad

Rajarshi Shahu Maharaj

Pandita Ramabai

Maharshi Dhondo Keshav Karve

Dr. B. R. Ambedkar

Dr. Panjabrao Deshmukh

Try this.

Collect information about the great personalities shown above in the pictures using the internet. One example is given below.

Karmaveer Bhaurao Patil

Karmaveer Bhaurao Patil founded the 'Rayat Shikshan Sanstha'. It is one of the oldest and largest educational institutions in India. He worked hard to make sure that students from all castes and religions could get education.

He started hostels for students and introduced the idea of 'Earn and Learn' scheme, where students could work and study at the same time.

The teacher entered the classroom. All the students stood up. The teacher said,

“Today, I am going to tell you the stories of a few great personalities in our history. Then the teacher began her story.

Shirishkumar

The British government treated Indians unfairly and exploited them. The people of India started agitating against the Britishers. Everywhere, people were saying, ‘Do or Die.’ In 1942, Mahatma Gandhi started the ‘Quit India’ movement.

The whole country was against British rule and protests had started everywhere. Even school students took part in these protests. There was a 16-year-old student named Shirishkumar in Khandesh region of Nandurbar district. He decided to lead a protest against the British rule. He along with his friends-Shashidhar, Laldas, Ghanshyam, and Dhansukhlal- organized a rally against the British rule. There was a peaceful rally led by school students moving through Jhanda Chowk in Nandurbar. The police ordered them to end the rally. However, Shirishkumar and his friends refused to obey. On 9th September 1942, the police opened fire on the protest. In this firing, these brave students sacrificed their life for the country.

Shirishkumar

Find Out

Find and read books about the work of Vastad Lahuji Salve, Rajguru and Krantisinha Nana Patil.

Shanti Ghosh and Suniti Choudhary

This is the story of two schoolgirls from Bengal—Shanti Ghosh and Suniti

Shanti Ghosh

Choudhary. They were classmates. Shanti’s father, Devendranath, was a professor. He instilled the values of patriotism in his daughter from young age. Even at such young age, Shanti understood that the British were ruling unfairly and that India should be free from this British rule. In 1931, both girls got a chance to listen to a speech by Netaji

Suniti Choudhury

Subhas Chandra Bose. They were deeply inspired by his words. Shanti Ghosh also took his autograph in her notebook.

Later, Shanti Ghosh and Suniti Choudhury started working with a revolutionary group known as 'Yugantar'. During this time, a British officer named Stevens in Comilla region of Bengal was committing violent acts against Indians. He used to beat people who participated in the protests and hurt them badly. The two girls decided not to tolerate this injustice. They decided to teach him a lesson.

Stevens feared for his life. He had set up an office in his own house and kept guards around him. People were not allowed to meet him easily. But Shanti and Suniti were determined to meet him. They learnt how to use a pistol. They went to his house fearlessly. When Stevens came out to meet them, they spoke to him. Then Suniti took out a hidden pistol and fired at him. Stevens collapsed on the spot. Both girls were caught and sentenced to life imprisonment. Later, they were released in 1939.

Let's know more

In 1818, after the British took control of India, Umaji Naik from Maharashtra started a revolt against them. He encouraged people to rise against British rule and tried to end their power. His work spread in places like Pune, Satara and Ahilyanagar.

After him, revolutionaries like Vasudev Balwant Phadke and the Chapekar Brothers took inspiration from him and continued with the revolt. Inspired by Chapekar Brothers, Vinayak Damodar Savarkar also fought for India's freedom.

Did You Know?

Babu Genu Said was a young man from the village of Mahalunge in Ambegaon taluka of Pune district. He worked in a textile mill in Mumbai. In 1930, during the boycott of foreign goods in Mumbai, protests were taking place. Babu Genu Said actively participated in this movement. In this agitation, foreign goods were being transported by trucks. At one such place, Babu Genu laid down in front of a truck carrying foreign goods holding the (Tiranga) in his hand. The driver ran the truck over him. Thus, Babu Genu Said sacrificed his life for the nation.

Babu Genu Said

Lets get to know

Chairman of the Constituent Assembly, Dr. Rajendra Prasad was presented the Draft of the Constitution of India by Dr. Babasaheb Ambedkar

9th December 1946 – The Constituent Assembly was formed under the leadership of Dr. Rajendra Prasad. 15th August 1947 – India got independence. After that, on 21st August 1947, the Drafting Committee was formed. Dr. Babasaheb Ambedkar was the Chairman of the Drafting Committee. Under his leadership, the final draft of the Constitution of India was presented before the Constituent Assembly on 26th November 1949. From 26th January 1950, the Constitution came into force. Therefore, 26th November is celebrated as ‘Constitution Day’.

Exercise

Q.1 The names of places are given in brackets. Write the correct place next to each person. (Nandurbar, Comilla, Pune, Mahalunge)

- (1) Babu Genu Said
- (2) Shirishkumar
- (3) Stevens
- (4) First Revolutionary Umaji Naik

Q.2 Answer the following in one sentence.

- (1) Who took part in the rally led by Shirishkumar against the British?
- (2) Shanti Ghosh and Suniti Choudhury worked in which revolutionary group?
- (3) Who established the Rayat Shikshan Sanstha?

Q.3 Answer the following-

- (1) The slogan given by Gandhiji against the British – _____
- (2) The person who inspired Shanti Ghosh with patriotism – _____
- (3) The person who started the freedom struggle inspired by the Chapekar brothers – _____
- (4) The name of the scheme started by Karmaveer Bhaurao Patil – _____

Q.4 Answer in 3–4 sentences.

- (1) The committee established under the leadership of Dr. Rajendra Prasad- _____
- (2) Chairman of the Drafting Committee- _____

Q.5 Answer in 3-4 sentences

- (1) Shirishkumar
- (2) Babu Genu Said

Activity

- Make a list of great personalities whose photos are displayed in your school.
- Find information and make a list about women who took part in the Indian freedom movement .
- Choose one inspiring incident from the life of a great person in your area and write about it. If possible, paste their picture.

Can you Tell?

Why did everyone happily start walking on the footpath?

Vinay asked the Principal, “What is cleanliness and why should we follow it?”

The Principal began to explain, “Cleanliness means taking care of our health and making sure diseases do not spread. For this, it is important to keep ourselves, public places, and the environment clean. Along with personal cleanliness, keeping our homes and surroundings clean is also important. This includes - throwing garbage in the proper place and managing drainage water properly. When we follow all these habits, we can see cleanliness everywhere. Cleanliness makes our surroundings pleasant, fresh, and happy.”

Think and Answer.

- › What will happen if we do not keep our body clean regularly?
- › What will happen if there is garbage and bad smell around us?
- › Who keeps our home, school, surroundings, village and city clean?

Vinay had many questions on his mind. He started speaking, “Every year on the 2nd October, we celebrate Mahatma Gandhi Jayanti by doing cleanliness drives. Was cleanliness not important before that? Didn’t anyone work for cleanliness earlier?” The Principal started explaining more about cleanliness.

Did You Know?

The tradition of cleanliness is very old in India. Cleanliness was also important in the ancient times. Thousands of years ago, there were beautiful cities in India like Harappa and Mohenjodaro. These ancient cities had well-planned roads, proper drainage systems and public bathrooms. People used to keep their homes, roads, and water places clean.

Did You Know?

Sant Gadge Baba was born in a village called Shenggaon in the Amravati district. His real name was Debuji Zhingraji Janorkar. He always carried a broom with him. He wore a torn simple blanket and held a pot (gadage- called in Marathi) in his hand. Because of this, people called him 'Gadge Baba'. Wherever he went, he would clean the village himself. In the state of Maharashtra, a campaign called 'Sant Gadge Baba Gram Swachhta Abhiyan' is carried out. In this campaign, people are expected to ensure clean and safe drinking water, cleanliness of homes, personal hygiene, cleanliness of surroundings, proper management of drainage water and proper disposal of garbage.

**National Sant
Gadge Baba**

“Cleanliness begins with personal hygiene. At the same time, keeping our surroundings and public places clean is equally important. It is the responsibility of every person to keep themselves and their surroundings clean.”

All the students were cleaning the surroundings outside. Some children were removing overgrown grass from the playground, while the others were collecting fallen leaves. Seeing this, Vinay said, “There are many trees in our playground. Leaves fall from big trees and turn into waste. So, we make manure from it.”

The Principal said, “We do tree plantation every year in the month of June.” Vinay asked, “Ma’am, what is tree plantation?” She replied, “Tree plantation means planting new trees.” Further she asked, “Where and how many new trees did you plant this year?”

Vinay answered, “I planted two trees in my backyard.”

Think and Tell!

- › Which trees remain green throughout the year?
- › What would happen if there were no trees?

Try This

- › Gently touch the leaves of a touch-me-not plant.
- › Plant a sapling in a pot and observe it for a few days.

The Principal continued, “Plants are living beings too. They need water, air and sunlight to live. Dr. Jagadish Chandra Bose, an Indian scientist, proved for the first time that plants also have feelings like us. This means they can feel happiness and sadness, they can sense heat and cold and they can also feel touch.”

We should plant new trees and take care of them so that they grow well. We should stop cutting trees because trees give us many useful things.

Think and Write

What does a tree give us?

What do we give to a tree?

Did You Know?

- **Chipko Movement (1973):** This was a movement to save forests. A large number of trees were going to be cut at the foothills of the Himalayas. To stop this, leaders like Chandi Prasad Bhatt and Sunderlal Bahuguna started a protest. Women hugged the trees tightly to protect them from being cut.
- 5th June is celebrated every year as 'World Environment Day'.

Let's Learn More

A 'Devarai' is a sacred forest protected in the name of God. These forests are important both naturally and culturally. They help protect biodiversity (many types of plants and animals). Cutting trees in these forests is strictly not allowed.

There is a very large banyan tree near Pemgiri Fort in Sangamner in Ahilyanagar district. This tree is also known as the 'Great Banyan Tree' (mahavatvriksha). It is believed to be the biggest tree in the state of Maharashtra. People have protected and preserved this tree together with great care. Shahaji Raje Bhosale had tried to establish Swarajya at Pemgiri Fort.

The Great Banyan Tree – Pemgiri

Saalumarada Thimmakka : Saalumarada Thimmakka is an environmentalist from Karnataka. She has lived over 100 years. The word ‘Saalumarada’ means a row of trees. She dedicated her whole life for planting trees. In the beginning, she planted 385 banyan trees and took great care of them as they grew. Later, she planted thousands of trees like Bodhi tree and Indian fig. She always used to say, “Trees are like our children”. The Government of India honoured her with the ‘Padma Shri award’ for her work in tree plantation.

Saalumarada Thimmakka

Saint Tukaram

Saint Tukaram has mentioned the importance of trees within just a couple of words in one of his abhangas (type of devotional poetry- part of oral tradition). In one of his abhangas he gives us the message that ‘nature is our family, and every living thing around us is our friend.’

“वृक्षवल्ली आम्हा सोयरी वनचरे ।

पक्षीही सुस्वरे आळविते।।”

| *Vrukshavalli aamha soyari vanachare*

Paskshi hi susware aalaviti |

The Principal and Vinay went to the classroom of class 4 while continuing with the conversation. She opened their textbook and showed him ‘Adnyapatra’ of Chhatrapati Shivaji Maharaj. Principal said, “In this Adnyapatra, policies for protecting trees are mentioned. Trees help in many ways. They keep the air clean. They prevent soil erosion and reduce pollution. They help store rainwater in the soil. They give us fruits, vegetables, medicines and wood. Along with this, they provide shelter to animals and birds. Planting and protecting trees is the responsibility of every citizen.”

After listening to all this, Vinay said, “I used to avoid doing cleaning work, but now I understand its importance. I also understand the benefits of planting trees. From now on, I will take the lead in personal cleanliness, keeping my surroundings clean and planting trees.”

Exercise

Q.1 Fill in the blanks with the correct words:

- (1) The birth anniversary of _____ is celebrated on the 2nd October.
- (2) Thousands of years ago, there were beautiful cities in India like Mohenjo-daro and _____.
- (3) Sant Gadge Baba was born in _____ in Amravati district.
- (4) The Government of India honored _____ with the Padma Shri award for tree plantation.

Q. 2 Complete the Table

Q.3 Match the correct pairs.

Group 'A'

(1) World Environment Day

(2) Devarai

(3) Chhatrapati Shivaji Maharaj

(4) Saalumarada Thimmakka

Answers

Group 'B'

(A) Tree plantation

(B) Adnyapatra

(C) 5th June

(D) Sacred forest

Q.4 Write examples of trees around you

Activities

- Collect information about Beej Mata Rahibai Popere with the help of your parents.
- Meet the cleanliness workers in your area and take their interview.
- Collect information about sacred groves (Devarai) and wildlife sanctuaries in Maharashtra using the internet.
- Gather pulses and seeds that you use at home and grow small plants from them.

12. National Unity

Incident - 1

One day, something unusual happened. The different colours started arguing within themselves!

The red colour said, “I am the most beautiful colour! I look like the hibiscus flower and the rising sun.” The white colour said, “No, I am the most beautiful! I stand for peace.” The green colour said, “Not at all! I am the colour of trees and leaves. You cannot even imagine the Earth without me!” The blue colour said, “Oh really? Then can you imagine the world without the sky and the sea?”

Just then, a gentle breeze passing by said,

“Oh dear, don’t fight! Look at the national flag of India. See how different colours live together happily. Let’s learn something from them!” The Indian National Flag is a symbol of our country’s unity, freedom and sovereignty.

Our country has many symbols. These symbols help us remember the feeling of unity and remind us of our values. Just like the national flag, another symbol of national unity is our National Anthem, which is ‘Jana Gana Mana.’ Even though we all speak different languages, we all know this song. Whenever the National Anthem is being played, it is our duty to stand in attention and show respect. Also, ‘Vande Mataram’ is our National Song.

Did You Know?

Find and write the meanings of the colours in the Indian National Flag:

Saffron (Kesari) -

White -

Green -

The Ashoka Chakra- It is a symbol of progress and movement. It has 24 spokes.

In India, people stay in different states across the country. They speak different languages, wear different clothes and celebrate different festivals. In spite of this diversity, we all are one. We are citizens of the same country.

Incident- 2

While talking about national unity, the teacher said, “Look around your classroom. We all look different from each other. Still, we study together in this class. We tell stories to one another and sing songs together. Sometimes we even have small fights, but we resolve them. We care for each other and respect one another. Just like this class, our country India is full of diversity. Even though we are different, we live together happily in one country. Calling ourselves Indians and staying united is ‘national unity’.

Read

Many parts make human beings
Many colours make a rainbow we see
Many flowers make a bouquet bright,
We sing songs in many languages with delight
Many cultures, many festivals and many dresses we wear.
Many of us together we care
As one united India we share.

Tell Us

Incident- 3

Imagine a new school year has started. A new girl has joined your class. Her mothertongue is Bengali. How will you talk to her? How will you help her? What will you do to make her feel comfortable in the class? Discuss this with the help of your teacher.

Colour the pictures.

National Flag

National Bird

National Fruit

National Flower

Let's Find Out

Search on the internet and find information about- state bird, state fruit, state animal, state flower.

The state of Maharashtra was formed on the 1st May 1960. That is why the 1st May is celebrated as Maharashtra Day. Just like a state has its own special day, it also has a state song, a state bird, a state fruit, a state animal and a state flower.

Just like symbols are important for national unity, national festivals are also very important. India got independence on the 15th August 1947. So, we celebrate this day as 'Independence Day'. On the 26th January 1950, the Indian Constitution came into effect. So, we celebrate this day as the Republic day.

Did You Know?

Rakesh Sharma : In 1984, Rakesh Sharma became India's first astronaut. Indira Gandhi was the Prime Minister of India at that time. She asked him, "How does India look from space?" Rakesh Sharma replied, "Saare Jahaan Se Achha!" ("Better than any other country in the world.")

(You can watch his video using the QR code given at the beginning of your textbook.)

Exercise

Q.1 Answer the following questions.

- (1) Write a short description of the Indian National Flag.
- (2) Who was the first astronaut of India?
- (3) What is our national flower?

Q.2 Choose the correct option and write.

- (1) The wheel on the tricolour flag is called
(a) Sudarshan Chakra (b) Ashoka Chakra
(c) Param Vir Chakra (d) Jalachakra
- (2) 15th August is India's
(a) Independence Day (b) Constitution Day
(c) Maharashtra Day (d) Republic Day

Q.3 Match the pairs.

Group 'A'

- (1) National Bird
- (2) National Fruit
- (3) National Song
- (4) National Anthem

Group 'B'

- (a) Jana Gana Mana
- (b) Vande Mataram
- (c) Mango
- (d) Peacock

Q.4 What is your mother tongue? Write the names of the languages spoken in the neighbouring states of Maharashtra.

Q.5 Observe the Front Page of this textbook and explain diversity in India.

Activities

- Collect information about national symbols and gather their pictures
- Collect patriotic songs and paste them in a scrapbook.
- With the help of the internet, find out which dialects are spoken in 2–3 districts near your district.

13. Let's Listen, Speak, and Understand.

What do you see in the picture?

- On which occasions is the flag hoisted in your school?
- Discuss in your group what preparations you make for flag hoisting.
- Take a ten-rupee note. Talk to your parents, teachers and others about the picture on it.

Dear students, It is important to listen attentively and quietly to our parents, teachers, and friends. We should express our thoughts clearly and confidently. We should also respect others' opinions while sharing our ideas. By doing this, our leadership skills grow and develop.

Let's Listen and Speak

- ▶ • Listen to Maharashtra- State Song' and sing it in tune.
- ▶ • List down the slogans you recite during the flag hoisting ceremony in your school.

What will you do in the following situations?

- ▶ Your friend is sick.
- ▶ Your friend's grandmother cannot see properly and wants to cross the road.
- ▶ A person in your house keeps using the mobile phone constantly.

Let's Understand

The Strength of Unity

The Sparrows and the Hunter

Dear children, have you heard this story? If not, then listen carefully!

In a dense forest, many sparrows lived on a big banyan tree. The tree had bright red fruits and the sparrows loved eating them. That is why many sparrows lived there. Among them was one wise and experienced sparrow who always told everyone to stay united.

One day, a hunter went into the forest. He saw many sparrows near the banyan tree and thought, "I will catch them". He made a plan. He spread grains on the ground under the tree and laid a net over them. Then he hid nearby and waited. After some time, the sparrows came down to eat the grains. They were so busy eating that they didn't notice the net—and suddenly, they all got trapped! "Oh no! What should we do now?" they wondered.

They tried hard to escape, but it was of no use. They became scared and looked at each other.

They kept trying, but nothing worked. Finally, the wise sparrow said, "Let us all hold the net together with our beaks and fly at the same time!" Everyone agreed. They used all their strength and flew up together—carrying the net with them! The hunter was shocked! He ran after them, but he couldn't catch them. While running, he even fell down.

The sparrows went flying to their friend, Mouse for help. The mouse and his friends quickly helped and chewed the net. In just a few moments, all the sparrows were free! The sparrows thanked them happily.

Tell Us

What did you learn from this story?

Look at the picture and try to understand it with the help of your teacher.

This picture is from the Khidreshwar Temple near Kolhapur. Two swans are holding a stick in their beaks and a tortoise is holding that stick. Can you create a story based on this idea? Take help from your teacher and parents and make your own story!

Carving in Khidreshwar Temple

This teaches us that unity is strength. If we stay united and work together, we can do even difficult things easily and quickly, isn't it so?

Did You Know?

The Under-19 Women's Cricket Team became world champions

India won the Women's Cricket World Cup Championship

The Indian Blind Women's Cricket Team also became world champions in the Global Blind Cricket tournament.

In the year 2025, these teams performed excellently in different international women's cricket competitions and won championships. These are proud moments for our country, India. These examples show that in team games like cricket, working together and staying united helps us achieve success and brings great pride to our nation. Also, the achievements of visually challenged women in cricket are truly inspiring and worthy of appreciation.

Exercise

Q.1 Write what will you do in the following situations.

1. When you are expressing your thoughts –
2. When elders are guiding you –
3. When the National Anthem is being played in school –
4. When you have wrappers of biscuits or chocolates with you –
5. When a differently-abled person is with you –

Q.2 Observe the pictures and write your opinion:

1. Garbage is lying around the bins meant for wet and dry waste.
.....
.....

Garbage

2. A boy is planting a sapling.
.....
.....

Tree Plantation

3. Friends are helping a differently-abled student by taking her out from school in a wheelchair.
.....
.....

For physically challenged students

Activities

- Collect pictures of Indian women sportspersons, paste them in a scrapbook and write their names.
- Collect stories from Aesop's Fables and Panchatantra from your parents and teacher and share them in class.
- Write about one activity or situation you liked the most from the value-based activities.

Hello Children!

If you feel uneasy about someone touching you inappropriately, you should not keep quiet. You must :

1. Not blame yourself.
2. Tell someone whom you trust.
3. You can also inform National Commission for Protection of Child Rights through the **POCSO e-box**.

When you get an unsafe touch, you may feel bad,
confused and helpless.
You need not feel "bad" because it's not your fault.

Press this button.

POCSO e-box available at ncpcr@gov.in

If you are below 18 years of age, and are troubled or confused
or abused or in distress or know some other child who is...

*Call 1098...because some numbers are good!
They change lives!!!*

CHILDLINE 1098 - A national 24 hours toll free
emergency phone service for children in distress is an
initiative of CHILDLINE India Foundation supported by
Ministry of Women & Child Development.
