Preface

Dear children,

We are happy to place this **My English Book Grade Two** textbook in your hands.

In Grade One you enjoyed various activities related to picture descriptions, songs, rhymes, stories, picture stories, letters, vowels, language puzzles and language games. Through these activities you must have cultivated the habit of talking through short talks particularly through 'Chit Chats'. The variety of activities in Grade One were useful to strengthen your ability to speak, read and learn English language.

This year too, you will rejoice singing and reciting songs and poems, creating your short poems and rhymes. The picturesque stories in the book will definitely make you curious to know the minute details of the stories. You will be able to think about your likes and dislikes in the stories. You will be creative enough to change the end of the story or create your own stories. The conversations with multiple threads given in the book will give you confidence to talk to anyone in real-life situations. The activity of combining sounds to form and recognize three to four syllabic familiar words given in the book will enhance your phonological awareness you achieved in Grade One. It will be useful to read simple sentences in the text on your own.

The exercises based on the poems and lessons will enhance your thinking abilities. Through these exercises, you will get many opportunities to think creatively. You will also learn many new words through word based riddles, games and activities. This will definitely help you expand your vocabulary.

All of you are imaginative and creative. We are sure that you will explore My English Book Grade Two textbook with great joy.

Dear children my warm wishes to you all!

Instructions for Teachers and Parents

The curriculum for the Foundational Stage has been designed as per the SCF-(FS)2024 prepared by SCERT, Maharashtra, Pune. In Grade One, the foundation for English language learning has already been laid. Focusing on the revised curricular goals, the content in **My English Book Grade Two** book is designed in such a way that the expected learning outcomes will be fulfilled through simple and interactive activities.

It is attempted to relate the content in this textbook to the children's home environment, school and social environment. Along with play-way activities and enquiry-based learning, as done in the previous Grade, the content also focuses on stimulating thinking abilities of the children. This will boost the children's confidence, involvement, engagement, critical thinking and holistic development to meet the age-appropriate competencies as expected in NEP 2020.

This is the guideline for teachers and parents to make learning an enjoyable experience by exploring these topics with fun and engaging methods. It is expected that the teachers/parents will follow the instructions given in the textbook for the best learning experiences. Besides, teachers can devise their own pedagogical methods to meet the set aims and objectives.

Sa Re Ga Ma Pa Dha Ni Sa...

The wind was blowing “so-so” in the bamboos. The rain was falling “*dho-dho*”. Birds were singing and peacocks were dancing happily.

Poor bamboos! What will they do? They did not have hands. They did not have legs. And they could not even speak! So who will they tell? What will they tell?

The birds in the forest were amazed because of that music.

They started saying to each other, ‘Look! The bamboos are singing like us...!’

Some tribal people came to the bamboo forest. They heard the sweet music. They liked it very much. They cut some bamboo and blew into it. Sweet tunes came out again but still they were not happy.

They made one big hole to blow air in. They made six small holes to play notes.
